

Stud Service Contract

It is hereby agreed that, if the first mating does not result in a pregnancy, we will provide a second stud service for no additional charge either to the same stud dog or a comparable replacement dog at our discretion. If a different stud dog is selected for a repeated breeding the two stud dogs will be considered as one and the same for contractual purposes. In the event that a second stud service does not result in pregnancy we will be considered to have fulfilled our obligation to this contract and we will be entitled to any stud fee. There will be a non-refundable handling fee of \$200 due at the time of delivery of the bitch. This \$200 will be deducted from the stud service balance if the contract is fulfilled.

In the event that a bitch becomes pregnant, but not whelp live puppies and all in the litter die, it is considered that we have fulfilled our contractual obligation for the stud service and all fees held by us is considered forfeited.
